ABRIDGED PROSPECTUS.

THIS Company is formed for the purpose of acquiring, developing and largely increasing the business of Messrs. HALL & HOLTZ, and of conducting the same, so far as the Shareholders are concerned, upon the Co-operative principle. With this view the Provisional Committee have arranged to acquire the leasehold store and premises in the Nanking and Sichuen Roads and the freehold manufactory and godown in the Yuen-Ming-Yuen and Soochow Roads, together with the plant, machinery, fixtures, stock-in-trade and goodwill of the Firm's business, upon very advantageous terms.

The following are the principal departments of the business as at present carried on, viz.:—Household and General Stores, Wines, Spirits and other liquors, Bakery, Tailoring and Gentlemen's Outfitting, Drapery, Ladies' and Children's Outfitting, Fancy Goods, Furnishing and General Upholstery.

Each branch of the business is in good working order, and well provided with all requisite fixtures and plant, while the stock is large and suitable, and the present staff of assistants is thoroughly well qualified.

To aid production in the furniture factory, powerful steam wood-working machinery has been ordered and may shortly be expected from Europe.

The gross returns of the Firm's business during the four years ended the 31st of March, 1882, have averaged about \$310,000.00 per annum, while the average annual profit during the same period has, after making ample allowance for bad debts, been over \$40,000.00.

Messrs. AUGUSTUS WHITE and GEORGE R. CORNER have certified to the above figures.

While the averages mentioned above are for a period of four years, the business done during the latter two of those years shows a marked increase, the profits for the two years ended the 31st of March 1882 being over \$100,000, or about \$20,000 in excess of the previous two years.

The accounts for the year ended 31st March, 1883, have not yet been fully made up, but the Day Books for the last six months of that year show Net Sales of \$178,137.97, against \$166,277.64 for the corresponding period of the previous year, being an increase of \$11,860.33.

The net profits of the business of the Company will be applied in the first place to paying interest to the Shareholders upon their Capital at the rate of 10 per cent. per annum, and of whatever surplus may remain one-third will be applied in such way as the Shareholders shall from time to time determine, and the remaining two-thirds will be divided among those Shareholders who are contributors of business, *pro rata*, according to the amount of business contributed by each during the year in respect of which the distribution is made.

MR. MOORE begs to recommend his GOGGI-SHAMPOO WASH to the public, as a valuable preparation ever produced for promoting the growth of the hair. The basis of this compound is made of soap root; the natives of the Philippine Islands never use anything else for washing their hair; they are never found bald, and it is quite common to see the females with hair from 5 to 6 feet long. By constantly using this Shampoo Wash as directed, you will NEVER BE BALD.

The proprietor offers the Wash to the public entirely confident that by its restorative properties it will without fail arrest decaying hair. It completely eradicates scurf, dandruff, and cures all diseases of the scalp. It does not contain any poisonous drugs. By its cooling properties it allays the itching and fever of the scalp, which is the great cause of people losing their hair.

Mr. MOORE has succeeded in being able to put this wash up in bottles without allowing it to ferment, and he will guarantee it to keep any length of time in any climate.

No. 38, QUEEN'S ROAD CENTRAL [4

The small-island kingdom of Hawaii is agitated from centre to circumference; not a new eruption of Mauna Loa, but by an earthquake in the language of the "ministerial-gan," has come upon that kingdom "with suddenness of a thunder-clap." Without war, and "entirely unexpectedly," two steamships arrived from Hongkong, bringing up of a thousand Chinamen, and the information that a third steamship was on the way with 1,500 Chinamen; that a fourth was about to sail with at least one thousand; that a fifth would follow with about eight hundred; that a sixth and seventh were chattered to be 1,600—making an addition of 5,600 to the Chinese population of the kingdom in two months of April and May. The suddenness of this great influx of Chinamen forbids that it is voluntary migration of Celestial Man. Spreckel's sugar plantation. The ministerial organ is compelled to think that the planters themselves have been, secretly, been, in; in point of fact, that it is the sudden closure of their method of solving the Hawaiian labor problem, which the Hawaiian Government undertook, but miserably failed to solve them. Yet, if it is the outcome of prearranged plans made by them, they have kept their counsels with marvellous secrecy. The intimation to the Government that seven Chinese Chinamen were coming was the very first cargo. The arrival of these invoices of Chinese coolies may be sugar planters, but the more serious question does it not portend the fulfilment of the branch of the fable of the frog? May it mean ruin to the kingdom? The judgment everybody in Hawaii, excepting the sugar-tors, is said to be against suffering these latest to be overrun by Chinamen; which means encouragement to immigration of all other races and the speedy substitution of Asiatic for the resembles European civilization. But what appears to worry the Hawaiian Government is the question: "What will they think it in America?" When the Americans believe that, by the reciprocity treaty with Hawaii, they have opened a sugar plantation worked by hordes of Chinese coolies, will not be inclined to listen to the clamor of Eastern and Southern men for the abrogation of that treaty? And if the treaty should be abrogated, would it not put an end to the rising prosperity of Hawaii, and bring that hopeful kingdom to ruin? These are not altogether fears of the Hawaiians. Beyond that, there is a tremor of the islands in the face of the population of these islands in the rapid influx of Asiatics than in any other conditions. It is a peril which American neither contemplate unconcernedly nor with disposition to be even passive agents of increase. It is a little strange that American sugar planters in Hawaii should not themselves perceive the danger, not only to Hawaii, but to their own interest, that lurks in this policy of populating these islands with Chinese coolies; the mere profit they hope to get out of them. It is not practicable for American sugar planters in Hawaii to get labor from the negro population of that country. A number of negroes have been moved from the South to Hawaii, if so many were required. The objection of the Hawaiians to the importation of Chinamen is that they do not bring their w with them; do not come as people, but as ported working animals. The same objection would not exist against the American but they would carry their families with them. They would become settled Hawaiians, and both they and their progeny certainly would make a desirable population of Hawaii. The King Kanakas or the Aliates that come their successors. The conditions of existence for the English race in Hawaii are not so good as those of the Chinese, whose manners and customs are not so different from those of the Chinese as those of the Chinese are from those of the Chinese.
